February 2016

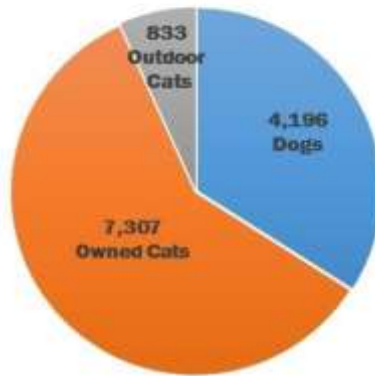

2015 Was A Record Year!!

Thanks to your generous support, we performed a record 12,336 surgeries in 2015!

These surgeries have prevented hundreds of thousands of unwanted cats and dogs from being born into abuse, neglect, abandonment and ultimately facing euthanasia at overcrowded shelters. Because of these surgeries, the intake rates of cats and dogs at the shelters in the 24 counties that we serve should continue to decrease substantially.

We could not have done it without your support, so **THANK YOU!!!**

Surgeries

Spay/Neuter Surgeries in 2016 (through 2/11/16)

Cats:	939
Dogs:	499
Total:	1,438

Interesting Cat Facts:

A female cat can produce as many as **3** litters each year.

Cats can become **pregnant** as early as **two weeks** postpartum.

Cats are **45 times** more prolific than humans!

Spaying a female cat greatly reduces the risk of breast cancer and removes the possibility of uterine and ovarian cancers.

It is estimated that there are around **70 million** homeless cats in the U.S.

EMPLOYEE SPOTLIGHT

UCAN is thrilled that Elizabeth Sandfoss, DVM joined our clinic in August 2015. Previously, Dr. Sandfoss worked in private practice for 7 years and then Banfield Pet Hospital for 3 years.

She graduated with a Bachelor of Science Degree from Northern Kentucky University and then went on to receive her veterinary medicine degree from the Auburn University College of Veterinary Medicine in 2003.

She feels very fortunate to have joined the UCAN team and is very passionate about supporting UCAN's mission. She believes that by offering low-cost spaying and neutering, we can drastically reduce the euthanasia rates in our shelters in the Tri-state area.

She currently resides in Northern Kentucky with her three beautiful children, her two Chihuahuas, Owen and Louie, and her cat, Belle.

UCAN's mission is to provide professional, low-cost spay/neuter services to end the unnecessary deaths of homeless cats and dogs in shelters in the Greater Cincinnati area, including surrounding counties in Southwest Ohio, Northern Kentucky and Southeastern Indiana.
