

❤️ **SMALL TEAM. MIGHTY IMPACT. EXTRAORDINARY HEARTS.** ❤️

It's National Veterinary Technician Week, and we couldn't be prouder of our three amazing Registered Veterinary Technicians, Morgan, Carly and Payton!

But when we asked them how they'd like to celebrate their special week, their response reminded us exactly why our UCAN team is so extraordinary.

They wanted to celebrate EVERYONE here.

Because they know that behind every successful surgery, every vaccinated pet, and every life changed is an entire team working together. From our veterinary professionals to our receptionists and administrative team, every single person plays a critical role in making our mission possible.

And what this team accomplishes is nothing short of AMAZING!

- 🐾 Just 17 dedicated employees.
- 🐾 More than 15,000 animals helped every year.
- 🐾 Countless unwanted litters prevented, lives protected, and families helped.

Think about that for a moment. A team of just SEVENTEEN people making a difference for more than FIFTEEN THOUSAND animals every year!

That's what happens when passionate, hardworking people believe deeply in a mission and give their very best to it every single day.

Our work isn't always glamorous. It's early mornings, long days, physically demanding work, and thousands of behind-the-scenes tasks that most people never see. But every member of this team understands that preventing animals from becoming homeless in the first place is one of the most powerful ways to save lives.

We may be small in numbers, but our impact on the animals of Greater Cincinnati is ENORMOUS.

So, this National Veterinary Technician Week, we're honoring not only our three outstanding techs, but the entire UCAN team they so generously wanted to recognize (including 5 staff not in picture).

To our amazing staff: You are the heart of UCAN. What you accomplish together every day is truly remarkable, and we couldn't be prouder of you! ❤️

WE NEED VOLUNTEERS!

Help make a difference for pets in our community!

Behind the scenes. Big impact!

> Volunteer tasks include: <

You won't interact with the animals because they are medicated, but you will still get to see lots of adorable pets and be part of the life-saving work we do every day!
