

SAVE CATS AND DOGS THIS

#GIVINGTUESDAY

We're counting down to Giving Tuesday next week — a global day of giving to make the world a better place for everyone, including pets. At UCAN, we believe in a future where every dog and cat have a loving home and access to quality veterinary care and overcrowded shelters are a thing of the past.

We are providing low-cost spay/neuter surgeries and core vaccines, free to those who are temporarily homeless or in a temporary shelter for abuse victims, reducing animal overpopulation at its source.

We could not help so many pets without you. We have performed 11,157 spay/neuter surgeries so far this year (over **185,500** surgeries since we opened in April 2007), preventing hundreds of thousands of unwanted litters of puppies and kittens from being born into horrible lives on the street or overwhelming local shelters.

This year alone, we saved the lives of 71 female pets with fatal pyometra infections of the uterus. Local emergency clinics are quoting the price of \$4,000+ for this risky spay surgery. Not many families in our community can afford that price to save their beloved pet.

Community cats comprised 4,415 of the surgeries completed this year. These cats will now not have the kittens that overwhelm local shelters during kitten season each year.

Finally, we have conducted 6,045 wellness appointments, helping pets stay healthy and with their owners by providing low-cost (free to those who cannot afford it) core vaccines, microchips with a lifetime registration, and needed parasite treatment.

Together, we can create lasting positive change in our community.

Please make a Giving Tuesday donation to join us in this movement.
